

Future Procurements

Policy & Procedures

Introduction:

The eVA Future Procurements site provides maximum access to electronic commerce opportunities for businesses in the Commonwealth of Virginia. The intent of the Future Procurements section of eVA is to inform the public about all major procurement opportunities, typically over \$50,000, that are anticipated to be available for bid with state agencies and local entities. The Future Procurements site is for informational purposes and does not represent specific contractual obligations, however, is considered an invaluable tool for businesses in competing for the Commonwealth of Virginia's expenditures in construction, goods and services.

Login request procedures:

1. To receive a login, users will contact their agency eVA lead.
2. Agency eVA lead collects the required user login information.
3. The Agency eVA Lead requests the DPS Account Executive to review the user information for approval.
4. The Account Executive approves/disapproves the request. If the login request is approved, the Account Executive emails the eVA Global Security Officer with the information.
5. The eVA Global Security Officer will create the account and the buyer receives an automated email from eVA Customer Care and emails the Account Executive & Agency eVA Lead to notify them that the account was created.

To request a Future Procurements login, contact your agency eVA lead and supply the following information.
